

## TEAM MANAGER

The Team Manager's page gives you access to special admin functions to simplify the task of managing the order.

Once you're logged in you can access the Team Manager's page from the drop down by your name.

Click View Orders to see details of all the orders received.

The system will remind members as the deadline approaches, and keep them up to date with progress so you don't have to.

Choose how you'd like the goods shipped.

Add team members by pasting their email addresses straight into this form. You can add them individually or in a bulk lot.

Share the store details with the whole team at the click of a button. You can edit the email before you send.

## TEAM ORDER STORE

Your team members see the store front end where they can view the products and place their orders.

The store collects and compiles all the orders and takes the payment which saves the team manager the considerable workload and responsibility of handling that themselves.

The team manager has the flexibility to adjust the price the team members pay by way of a subsidy or surcharge. Any difference results in a credit or a bill that can be settled at the end.
